## Experience

June 2021 - PRESENT

### **Kitchmet, Los Angeles, CA** – *Full Stack Developer*

- Designed various data tables and stored procedures with utilized conditional joins, pagination, batch inserts, and transactions within SQL.
- Developed domain models, services, and web API controllers in middle-tier using .NET Core.
- Created a customizable dashboard to display current logged in user information through AJAX/AXIOS calls.
- Created reusable components using React for functionality and third-party libraries such as Material-UI and Font Awesome for display.
- Participated in daily stand ups with colleagues to communicate progress, as well as peer reviews to ensure quality assurance.
- Reviewed code, debugged problems, and corrected issues.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.

October 2015 - June 2021

### **Dunn-Edwards Corp., Los Angeles, CA** – *Accounts Receivable Supervisor*

- Created data tables of past due and current invoices due for customers to include subtotals, advanced filters to filter by month, year, or purchase order, and used database functions.
- Managed financial records through SAP including invoices, price lists, and purchase orders.
- Converted SAP database information into readable and printable spreadsheets.

## Education

August 2008 - May 2012

### **California State University of Northridge, Northridge, CA** – *B.A. Psychology*
